

***Something new at 2010 GWRRA Region D Rally/Convention
Oil Change/Maintenance Seminar (live)***

It was suggested that many Members would like to know how to change the Engine Oil and Filter in the Goldwing motorcycle, others wanted to know how to remove and replace the seat or maybe even remove the rear tire and wheel on a GL-1800.

We have a new Vendor / Honda Dealership “Route 66 Power Sports” from Ionia, Michigan coming to the 2010 Region D Rally. Their representative “Tim Letts” has agreed to do a live instructional maintenance seminar, for those of you that are interested right at their vendor site. Check the “Schedule of Events” for time.

We will have a sound system at their vendor site and either Tim or his associate will be wearing a wireless microphone and will be talking and explaining what they are doing as they do the work. They will be using a 2010 Honda Goldwing Motorcycle to work on. They may even answer questions.

“Route 66 Power Sports” will be selling Honda parts & accessories, plus other Chrome & motorcycle related accessories. Are you interested in taking a new 2010 Honda Goldwing for a Demo ride? Well, “Route 66 Power Sports” and Tim will using that same 2010 Honda Goldwing motorcycle for Demo rides at different times throughout the Rally. Stop in and see them and sign up for a demo ride. They will ask for you to fill out a survey and sign a liability form.

The entire Region D Team would like to thank Tim, his associates and "Route 66 Power Sports" for helping us make the 2010 GWRRA Region D Rally/Convention a success.
